

Series 500®

BY EXPI-DOOR®

PREASSEMBLED PRODUCT

WARRANTY

Series 500® doors have a complete two-year warranty minimum on all standard components. Laser welded door edge has a lifetime warranty.

STANDARD KEY FEATURES

The Series 500® is made of the best quality components, meeting commercial standards at a value oriented price. Compare the following:

Finish-Coat Painted

All doors and frames are baked-on, finish-coat painted, meeting ANSI A250.3 standards. Tested for salt spray, humidity, abrasion, and adhesion.

Doors

20 gauge galvanized (A40), polystyrene core, laser-welded edge (lifetime warranty). Flush mounted top channel. Doors meet commercial Steel Door Institute (SDI) standards.

Frames

16 gauge galvanized (A40), 5 3/4" frame depth with 6" sheeting header. Frames meet commercial Steel Door Institute (SDI) standards.

Locks

EXPI-DOOR® private label heavy duty grade 2 lever lock. Thru bolted for strength. Free wheeling vandal resistant lever.

Subjambes

16 gauge subjambes replace the need for a framed opening. Full 7'2" in height and can be modified to fit various wall conditions. 12 gauge adjustable clips to attach to the girt and floor.

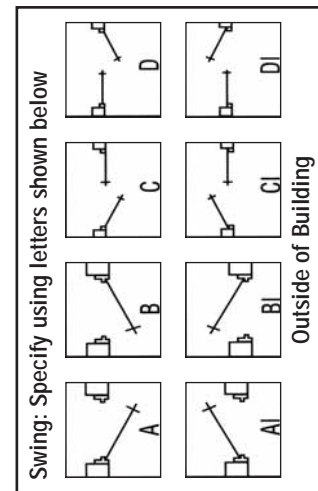

Hinges

Ball bearing silver powder-coated hinges with security non-removable pins.

Other

Full 5 3/4" aluminum threshold, dual finger TPE sweep, and urethane weatherstrip for kerfless type application. All components meet commercial standards and ADA requirements.
